## **Equipment Preventative Maintenance**

**May 27-28, 2021 (8:30 – 12:30 AST)**

### **Course Objective / Description**

Some preventative maintenance programs produce unnecessary downtime due to equipment failures, resulting in higher maintenance and operational costs. Optimizing your current preventative maintenance program can save you money. By performing a regular preventive maintenance you are assured your equipment will operate under safe conditions, both for the equipment and the operators. Possible issues can be found before they have a chance to cause harm.

What will be covered:

- Different types of preventative maintenance
- Deciding what preventative maintenance to do, on what equipment, to what equipment
- Where preventative maintenance fits in to an overall maintenance strategy
- Planning and controlling preventative maintenance
- How to improve your preventative maintenance
