## **Adverse Water Quality Response**

**March 28-29, 2022 (8:30 – 12:30 AST)**

### **Course Objective / Description**

The course will briefly cover the Safe Drinking Water Act and Regulations and the benefits of implementing a Quality Management System. Adverse Water Quality Incidents (AWQI) will be explained, as well as adverse water quality reporting, corrective action and resolution. The water treatment requirements for each category of water source will be explained. This will be followed by a description of primary and secondary disinfection. The three critical water quality monitoring parameters to prevent waterborne disease outbreaks: chlorine residual testing, indicator bacteria sampling and turbidity measurement will be examined in detail.
